Course Topic

The impact of covid-19 on education in the UAE and the implementation of Distance Learning

Session 4&5

Digital formative assessment tools in Distance learning

&

Creating and presenting activities/tasks using digital tools

Trainer and Material Developer: Nazeema Raju

“Technology is just a tool. In terms of getting the kids working together and motivating them, the teacher is the most important.”
-Bill Gates

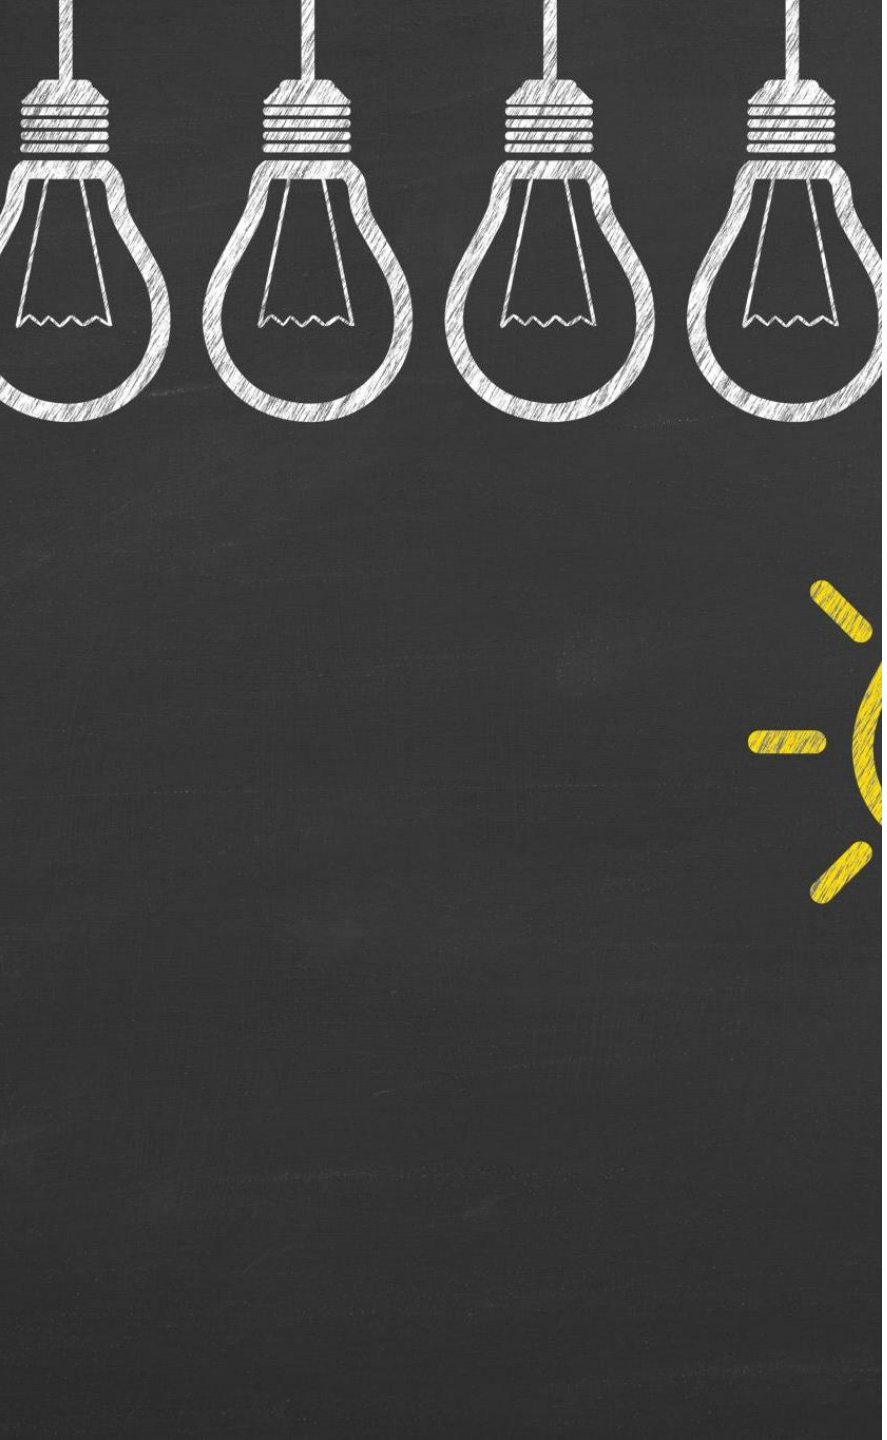
Session Etiquette

Trainer and Material Developer: Nazeema Raju



Session Aims

1. Identify and highlight educational technology tools to support formative assessment and classroom instruction.

- Using PowerPoint features effectively.
- Using flippity to create groups/flashcards/wordsearches etc.

2. Analyze Ed tech tools best suited for you and your students.

- Create and present activities/assessments using any Ed tech tool to enhance your curriculum

Trainer and Material Developer: Nazeema Raju

What are Educational Technology Tools…

Educational technology tools are technology-based learning platforms designed to guide formative assessments, instruction and feedback to students and to enhance teaching and learning.

Let’s play Kahoot…

https://play.kahoot.it/v2/?quizId=2d4da871-f2ec-4b4e-82df-e571694db742

Identify the Ed Tech tools…

What is Kahoot?

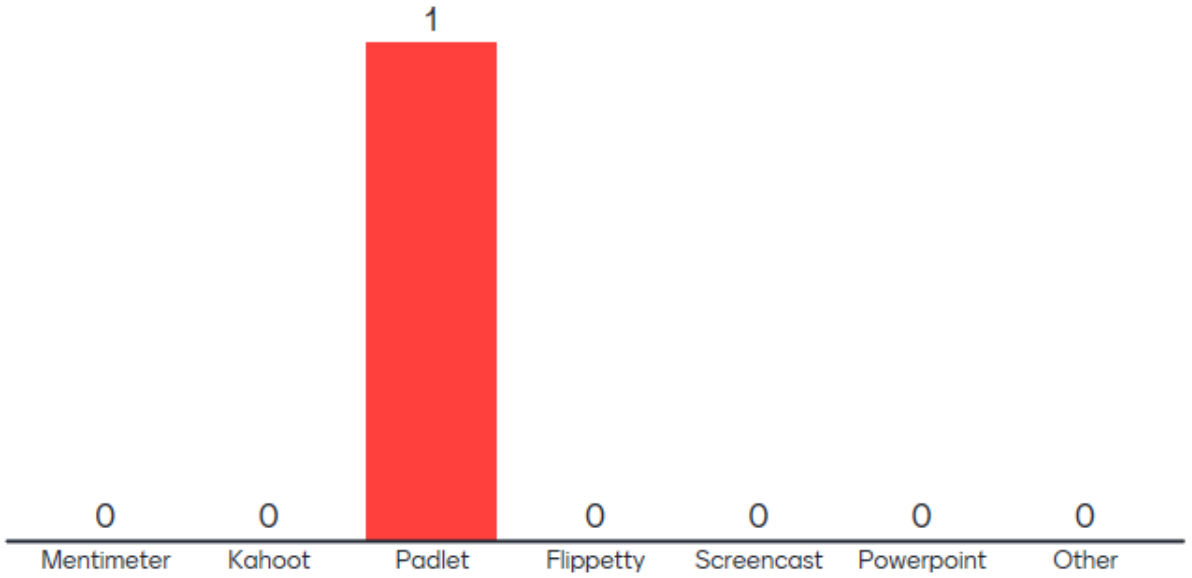
- Kahoot! is a game-based learning platform . Kahoot! makes it easy to create, discover, play and share fun learning games in minutes—for any subject, in any language, on any device, for all ages.
- Kahoot! allows teachers to quickly create fun learning games for students based around multiple choice questions. After creating the game, students can use any device to sign-in to the game ‘room’ using a unique code to complete lessons and compete against their peers.
- Used as an attention grabber at the start of a lesson or revision class.
- Kahoot! Is surely a great tool for any teacher.

Trainer and Material Developer: Nazeema Raju

Go to **www.menti.com** and use the code **90 57 11 2**

Which digital tool have you used ?

Mentimeter



Effective use of PowerPoint features…

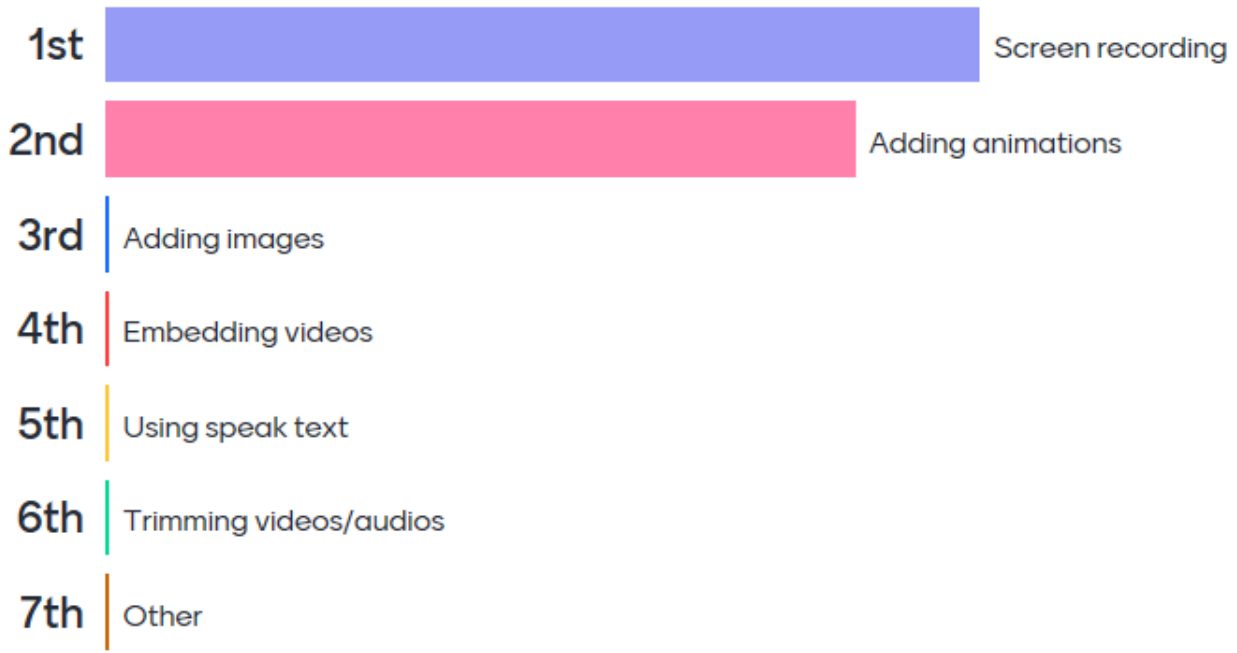
- Using speak text feature
- Trimming videos/audios
- Screen recording
- Embedding video

Trainer and Material Developer: Nazeema Raju

Go to **www.menti.com** and use the code **65 58 70 9**

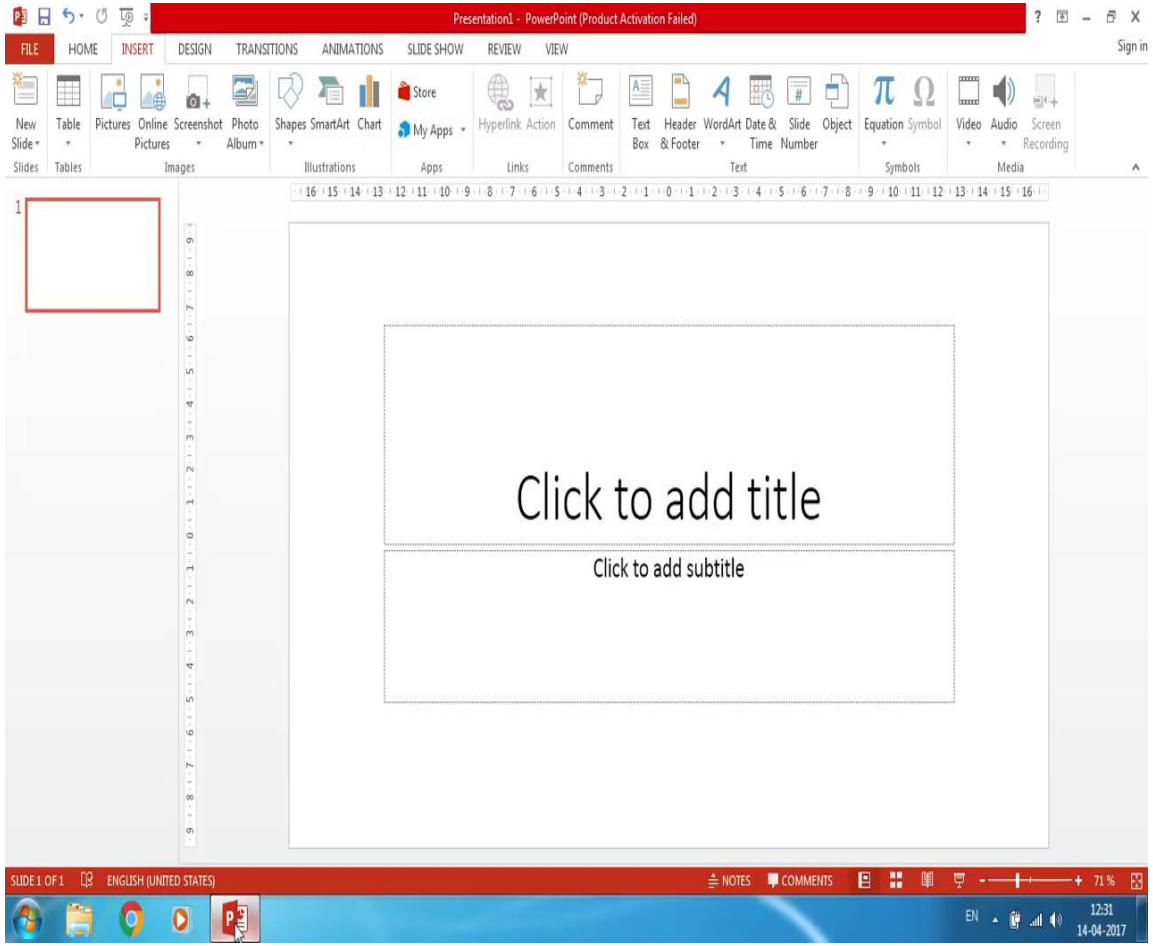
Which feature are you most familiar with?

Mentimeter



1

Using the speak selected text…



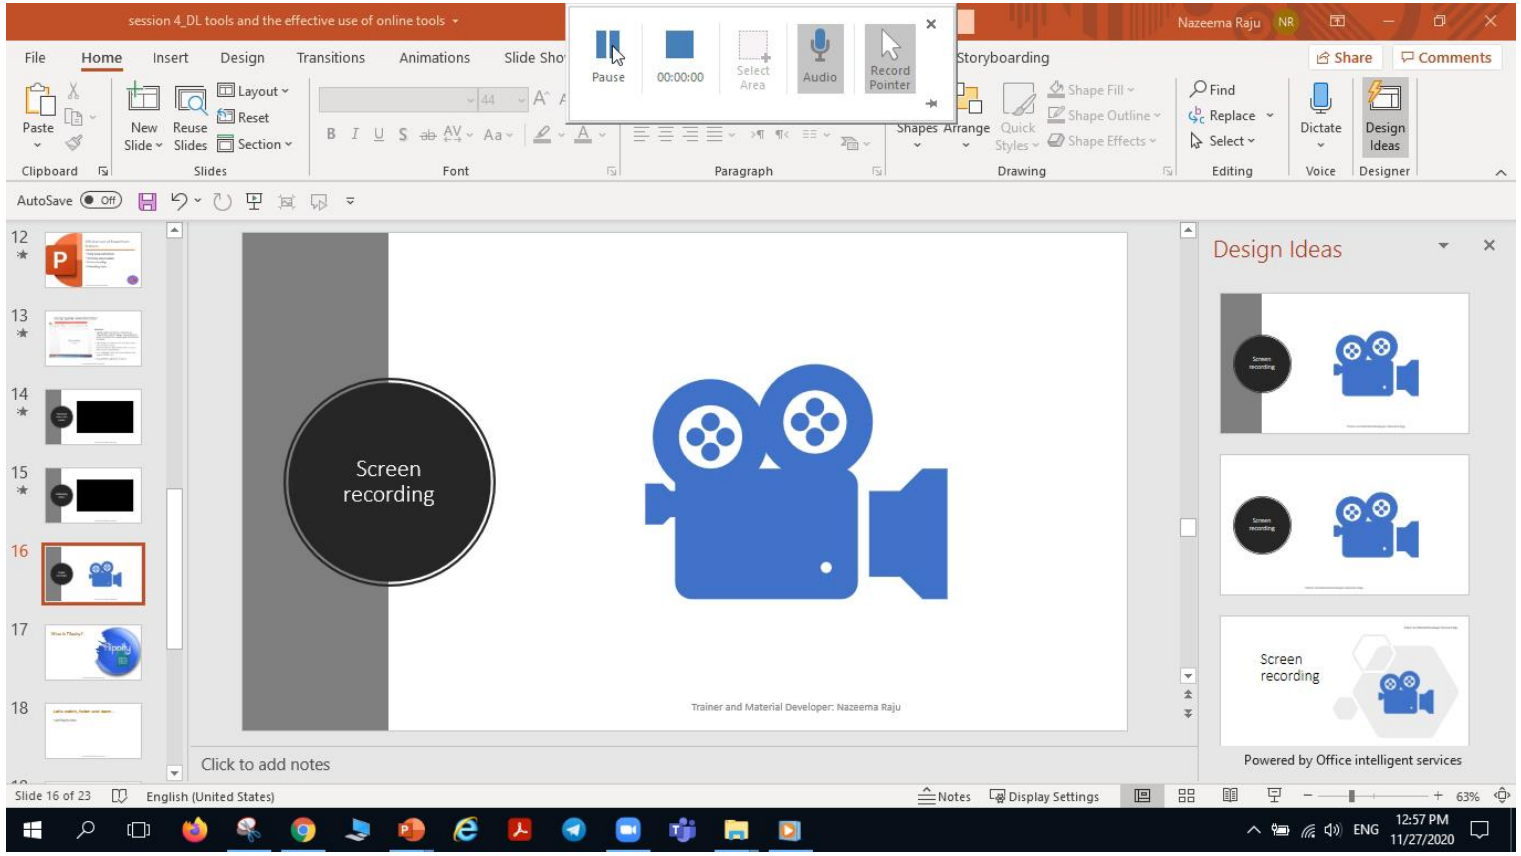
Example:

- Speak selected text is a feature on PowerPoint which allows PowerPoint to read out aloud in a clear well articulated manner.
- This helps teachers and students who are unsure of any pronunciation,intonations etc. to use this tool as assistance.
- Just highlight the text and click on the speak select box.
- PowerPoint will read it aloud.

Trimming videos and audios

Embedding videos

Screen recording



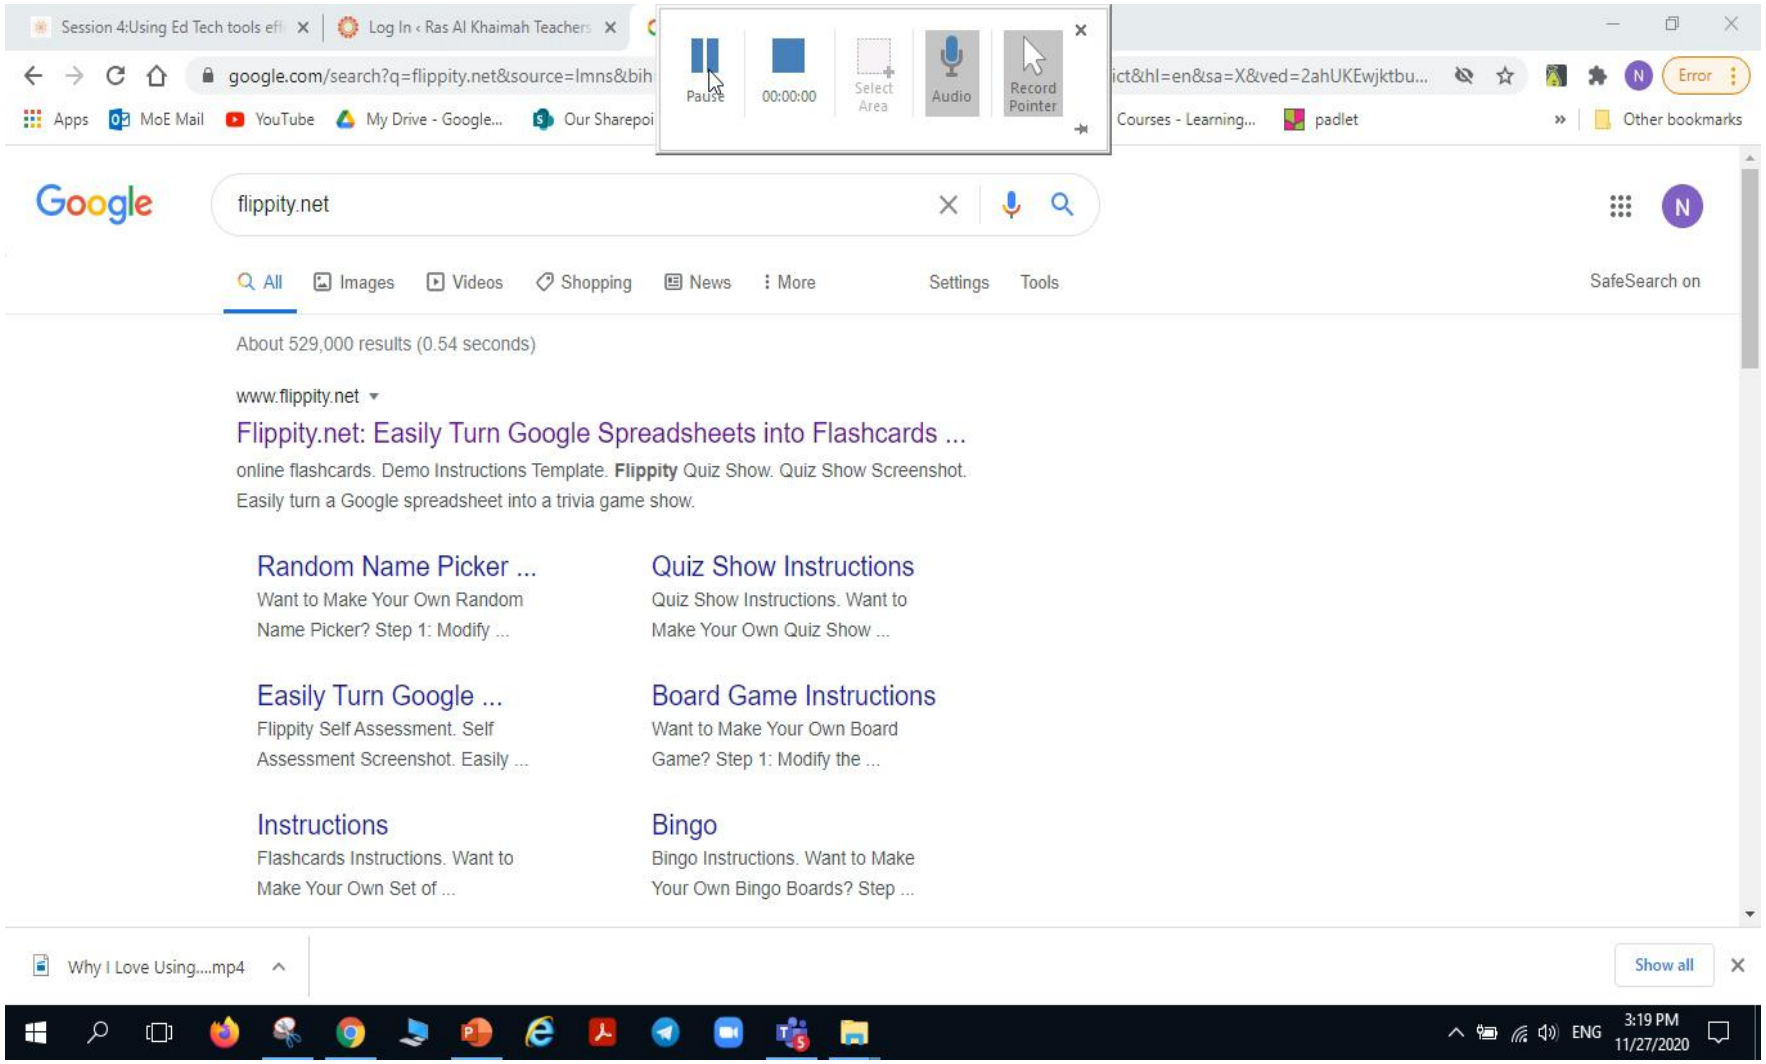
What is Flippity?

Flippity easily turns any Google spreadsheet into flash cards, a badge creator, a spelling quiz, a memory game, a word search, and more.

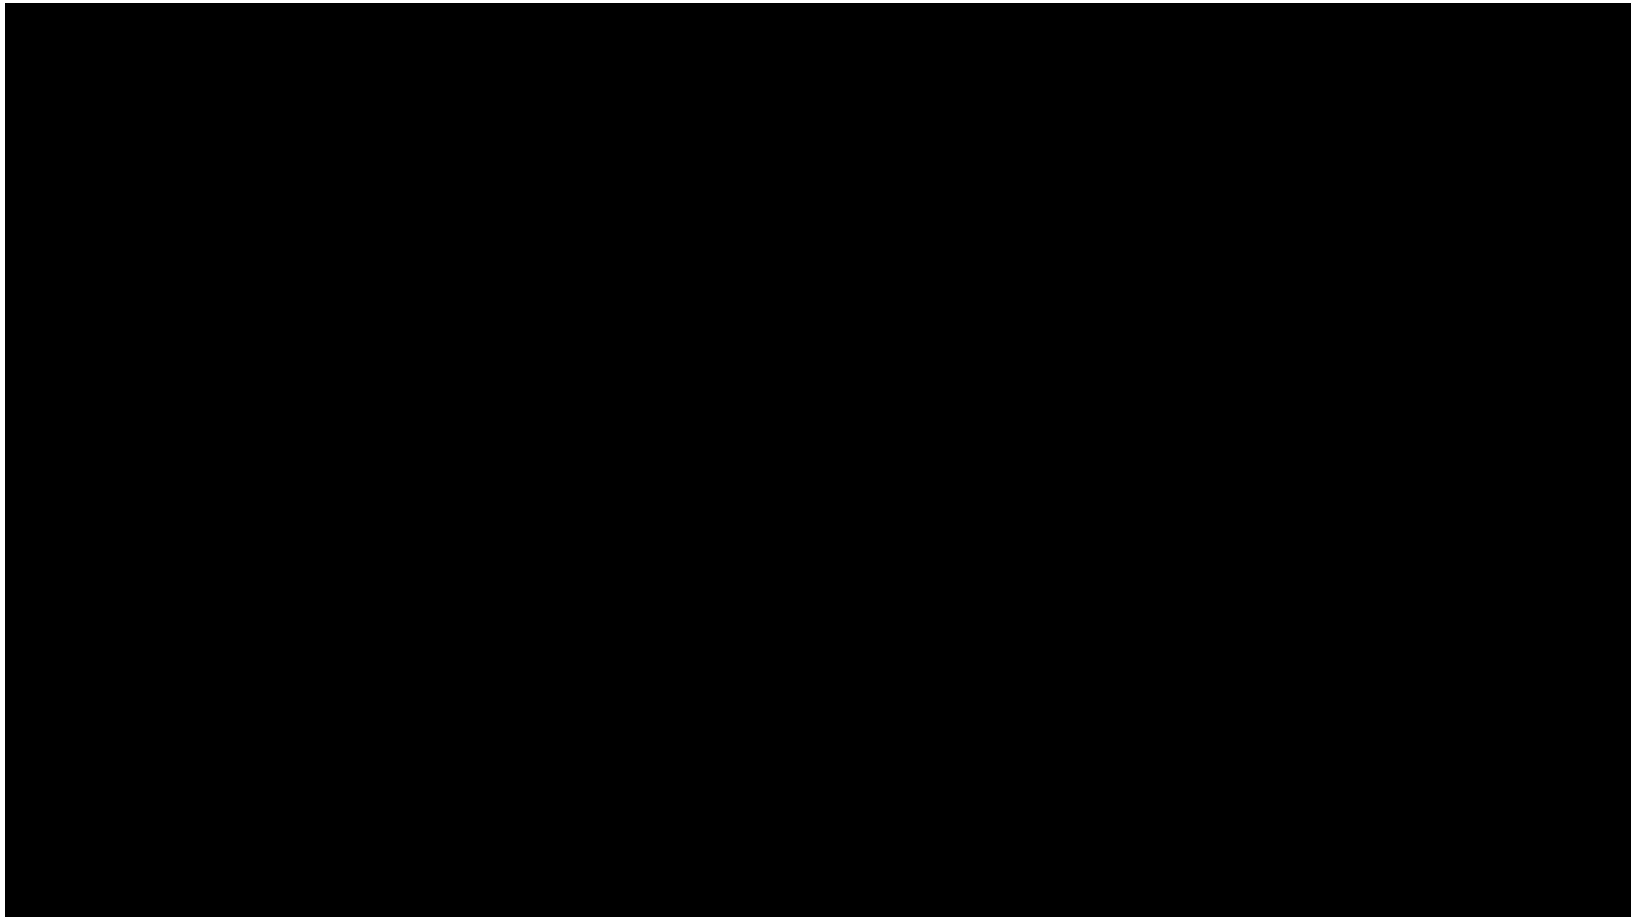
Teachers can use Flippity for a variety of purposes:

- To present to the class, to assess individual students, or to have students make their own creations. In each case, check out the demo, and then use the templates and detailed instructions provided to transform your spreadsheet.
- Want student teams to see how far they're progressing on an extended project? Use the Progress Indicator to quickly show them what percentage of tasks they've completed. Need to make sure you're calling on students equally? Add their names to the Random Name Picker. There are even templates for creating Mad Libs stories and tournament brackets

What is Flippity?



Let’s watch, listen and learn…



Your Task

Use the random picker to create groups for your class or use the flashcard maker to create flashcards for your subject.

Share your flippity link to padlet once completed.
